Efforts of Jeddah Academy for Maritime Science and Security Studies in International Maritime and Security Training
Jeddah Academy for Maritime Science and Security Studies, affiliated to the General Directorate of Border Guard, is the first of its kind in the Kingdom, as its maritime security specialization, in addition to the specialized courses it offers in the field of border security in particular, gives it a unique character in the security scientific tasks it offers. At all local, regional and international levels.
**Vision**

Reaching the best international standards in education, academic qualification, training and scientific research in the fields of border security and maritime safety.

**Message**

Creating ways of acquiring knowledge, skills, and leadership, technical, field and administrative trends for Saudi Border Guard employees and those involved internally and externally, and contributing to community service, production, dissemination and application of knowledge, through commitment to the approach of strategic management and excellence.

**Values**

- Affiliation
- Justice
- Honesty
- Cooperation
- Proficiency
Sensing the importance of keeping pace with the rapid development in the security field, believing that the human being is the main axis of the process of development and development, and a desire to consolidate security and stability in the countries of the world, the Kingdom of Saudi Arabia, represented by the Directorate, contributed to hosting the many workshops and programs of the conference and the many frontiers of the conference. International training in the field of maritime security and combating maritime piracy in cooperation with international bodies and organizations and under the supervision of the International Maritime Organization (IMO) in many disciplines and security sciences in general and maritime in particular, in which many trainees from various signatory countries to the Djibouti Code of Conduct and others participated in it. These courses have contributed to raise the capabilities of these countries in the field of maritime security.
