Successes, Challenges and Recommendations

1. Varying capabilities between member states.
2. Common and coordinated approach=effective response
3. Continued collaboration in information sharing and exchange of best practices is essential.
4. Joint exercises and operations improve interoperability.
5. Complementarity and not competition between existing and established mechanisms.
6. RMSA Agreements allow for membership from the region and partnerships from the region and elsewhere
7. Operations undertaken already involve the wider region
